

XFINITY® makes it easy to move.

Simplify move-in at your new address.

The XFINITY Movers Edge program makes it easy for customers to transfer services. Just call before the move and ask about our great move offers.

XFINITY provides customers with two options:

- Schedule a professional installation on the date you choose with a 2-hour window guarantee.
- Or, we'll send you an easy-to-use Self Install Kit.

And in some locations, customers can take their XFINITY equipment to their new home. They can even keep their phone number if they move within the same area code.

With Movers Edge, customers will be watching their favorite shows and connecting with family before all the boxes are unpacked!

For more information, visit xfinity.com/MoversEdge.

Did you know?

You can start enjoying your XFINITY services before you even install equipment.

Once you activate your account, you can start watching XFINITY TV on your wireless devices right away.
