

NATURAL LATEX

THE SMARTER CHOICE FOR PURE LATEX

Natural Latex is the healthiest, most eco-friendly bedding choice. And when you buy your Natural Latex from Mountain Top Foam, you know you're getting a superior product. When compared to the competition, our Natural Latex is scientifically proven to have minimal firmness loss – attesting to its long-lasting comfort and durability.

Delivering comfort in 4 firmness levels:

Firmness Level	Soft	Med Soft	Medium	Firm
ILD	13	19	23	31

Manufactured using the finest materials and Perpetua™, our proprietary continuous-pour process

100% pure, natural latex sapped with care and expertise directly from the rubber tree

Sustainably sourced and entirely biodegradable

Naturally hypoallergenic, mold-resistant and microbe-resistant

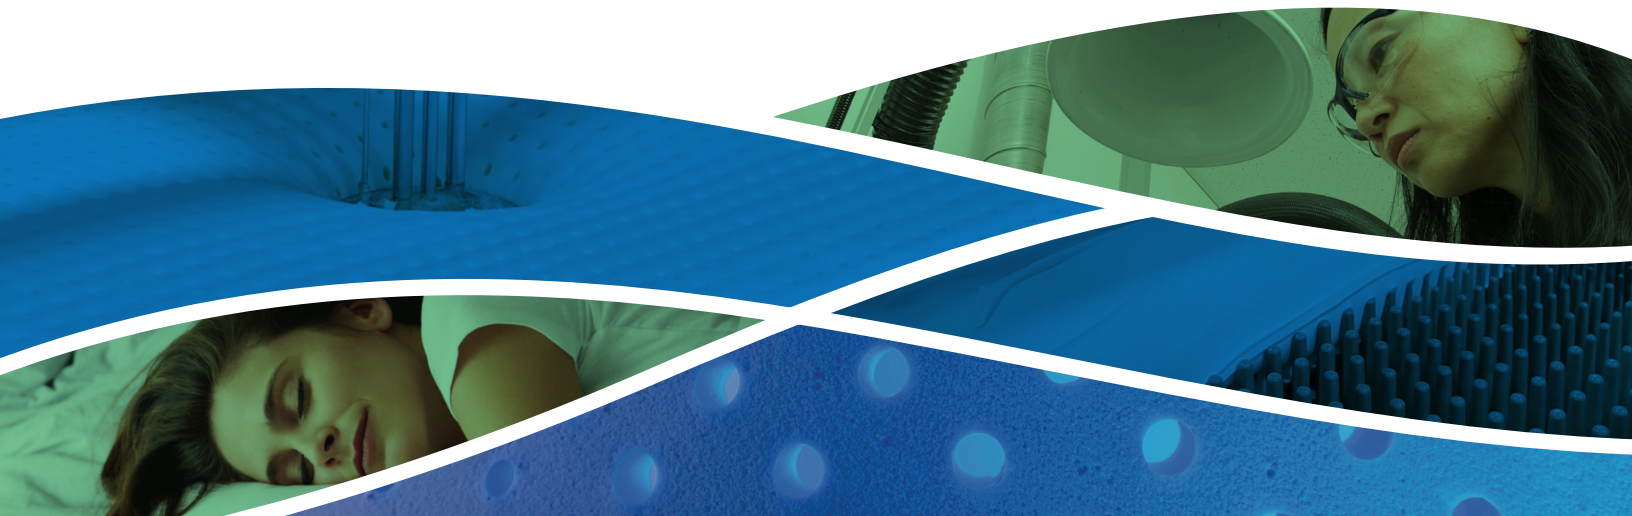

Maximum buoyancy for the most luxurious support

Superior strength and long-lasting comfort, year after year

Our Natural Latex is proven to perform substantially better than the competition in both wet compression and dynamic fatigue testing. The data reveals minimal hardness loss on both tests, which simulate the effects of sleeping on the latex over extended periods of time. That means minimal body impressions, minimal breakdown and a mattress that delivers the same lush comfort, year after year.

We are dedicated to providing the mattress industry with the highest quality in sustainably sourced American-made latex cores, toppers, mattresses and sleep accessories. Our company never settles — on customer service, on quality or on comfort. That's why we invented, patented and continue to perfect Perpetua, our proprietary latex continuous-pour process. Our advanced process is based on science that's leading the industry and specially designed for a better night's sleep.

Each Mountain Top Foam Product Family Is Guaranteed To Deliver:

Responsive comfort, contouring to the body's movement throughout the night

Enhanced pressure relief on sensitive areas

Uplifting support for a weightless, unsinkable feeling

Breathability for the perfect sleeping temperature

Resistance to breakdown and body impressions for long-lasting durability year after year

An eco-friendly choice

The Seven Zones of Comfort

Our proprietary Seven-Zone Design creates the optimal combination of pressure relief and support. With our design, your mattresses will deliver increased support in the much-needed lumbar region, while gently enveloping areas like the shoulders, hips and thighs.
